

The Road I'm On

Ryan Bingham

I don't even know where I've been
Until I'm up and I'm gone again
Forever traveling this road I'm on
How long can I sing the blues?
Ain't worth what I have to loose
Paying up these god damn dues
On the road I'm on

Oh baby, it's late at night, I see something in my headlights
Ain't nothing but where I've gone
And the road I'm on,

I've been looking like a heart attack
But in the mirror I can't look back
Now I that I made new tracks

On the road I'm on
Somebody just pass me something to smoke
I need to laugh but I'm out of joke
Just take me one more talk for road I'm on

Oh baby, it's late at night, I see something in my headlights
Ain't nothing but where I've gone
And the road I'm on,

The road I'm on

There's something wrong with the telephone
There's nowhere for the chord to go
I'm headed home, the road I'm on
