

# House On Fire

Ryan Cabrera

We could be legends for years to come  
Yeah, they'll talk about us like we're the ones  
We can be untouchable while we're young  
And laugh about it when we're dead and done  
You and me we're automatic  
You and me  
Could say we had it all

We can burn  
Hotter than a house on fire  
C'mon lemme see your fighter  
Heaven help me be your flame  
Baby we can burn burn burn  
Faster than the world can turn  
Till we fade away

They can try to take us we won't go  
We could be the kings and queens of hope  
When everything is bought and sold  
In the end, you're the only thing that's gold  
You and me we're automatic  
You and me  
Could say we had it all  
Just to say we had it all

We can burn  
Hotter than a house on fire  
C'mon lemme see your fighter  
Heaven help me be your flame  
Baby we can burn burn burn  
Faster than the world can turn  
Till we fade away

Calling the angels, calling the broken  
Calling the ones who kick the doors wide open  
Calling the dreamers, all the disasters  
Calling the ones who make the world turn faster

We can burn  
Hotter than a house on fire  
C'mon lemme see your fighter  
Heaven help me be your flame  
Baby we can burn burn burn  
Faster than the world can turn  
Till we fade away  
Till we fade away  
Till we fade away  
Till we fade away  
Till we fade away
