

I See Love

Ryan Cabrera

There's a little boy on a city street
Running scared on blistered feet
Feels like life won't get much better

Little did he know, there would be a day
She would come along, make everything ok
Now he's singing that love letter

And he said, hold my heart like a memory and don't let go cause
suddenly

The sun shines on everyone everywhere every time you kiss me
And when I look anywhere baby I swear
I see see love, I see see love, I see see love, I see see love
in the world

I've been a lot of things, seen a lot of ways
I can hold it in, not know what to say
Hesitate even though I want it

No it wasn't me but there was a change
I could feel the ground start to wanna shake
What a beautiful, wonderful, perfect moment

So hold my heart like a memory and don't let go cause suddenly

The sun shines on everyone everywhere every time you kiss me
And when I look anywhere baby I swear
I see see love, I see see love, I see see love, I see see love
in the world

And the grass is finally greener and the darkness starts to fade...
all, all the way

The sun shines on everyone everywhere every time you kiss me
And when I look anywhere baby I swear
I see love, I see love, I see love

The sun shines on everyone everywhere every time you kiss me
And when I look anywhere baby I swear
I see see love, I see see love, I see see love, I see see love
in the world

I see love in the world

I see Love
