

I Will

Ryan Cabrera

Do you ever wonder
If we were not friends
I know it's hard to ponder
But there's reasons for that
Yeah yeah yeah

But I can't go on without you
It's burning inside my head
But I feel so alone without you
Now I can't survive
It must be alright

I will not take that road again
I will not try to find those things up in my head
I will not take that road again
Even if I keep my head above the ground
Which you know I will
Well you know I will

Don't you wonder what things would be like
Well I know I can't give you everything
Wouldn't that just be real nice? Yeah
Well I can't go on without you
It's burning inside my head
But I feel so alone without you
Now I can't survive
It must be alright

I will not take that road again
I will not try to find those things out in my head
I will not take that road again
Even if i keep my head now
But I'm trying
Now people can't you see
If I'm blind now
And all this was a dream
At least it was a dream about you..right now

But I can't go on without you
It's burning inside my head
I feel so alone without you now
And I feel so alone right now

I will not take that road again
I will not try to find those things up in my head
I will not take that road again again again
Well you know I will
Well you know I will
Well you know I will...I will
Well you know I will
