## Let's Take Our Time

**Ryan Cabrera** 

I wanna give every part of you the attention it deserves I want to take it slow get you in the mood Cuz the clocks not guna turn We've been waiting for a couple of weeks And i know we shouldn't rush Theres no one here but us

I dont want this to die Dont want to ever forget this night To hurry you would be a crime Lets take our time Lets take our time

Something so right when i hold you I dont want to ever let you go When you whisper in my ear All the things you want to do This sensation starts to grow I dreamt about it every day and night Never thought that it'd come true Now its just me & you

I dont want this to die Dont want to ever forget this night To hurry you would be a crime Lets take our time Lets take our time

I dont want this to die Dont want to ever forget this night To hurry you would be a crime Lets take our time

I dont want this to die Dont want to ever forget this night To hurry you would be a crime Lets take our time Lets take our time

Lets take our time Lets take our time Lets take our time
