

# Shame On Me

Ryan Cabrera

I know you wanna talk  
And tell me about your day  
But i keep wandering off

Oooh how your hair...  
falls in front of your face  
While you try to keep it up

I've always paid attention to your point of view  
But now i want to focus on the rest of you  
Shame on me wanting you  
The way i fantasize about  
What i'd give, what i'd do  
I just want to work you out  
Times like this I'm so glad that you can't read my mind  
Shame on me another time

Please dont walk away  
I'm only drifting 'cause you look so good tonight  
Now that we're alone it's so hard to listen  
You know you got me mesmerized

I've always paid attention to your point of view  
But now i want to focus on the rest of you

Shame on me wanting you  
The way i fantasize about  
What i'd give, what i'd do  
I just want to work you out  
Times like this I'm so glad that you can't read my mind  
Shame on me another time

I've always paid attention to your point of view  
But now i want to focus on the rest of you

Shame on me wanting...

Shame on me wanting you  
The way i fantasize about  
What i'd give, what i'd do  
I just want to work you out  
Times like this I'm so glad that you can't read my mind  
Shame on me
