

# History

Ryan Leslie

Life is really what you make it you know what I mean  
It's whatever you write in your own history books  
So whatever story you write  
Make sure it's good  
Les

Champagne flutes up, baby it's a celebration  
Shout out to the flyest, the pride of my generation  
Well educated and under appreciated  
Still pulling broads that make me the most hated  
Legendary, track, record man, always with a ten  
Treat em good, give em stories for their friends  
They just looking for adventure, a lot of fun  
I done had my share of problems: model ones  
It's the same damn story man, I'm just trynna spin it  
Same damn game man, I'm just trynna win it  
Shout out to my hustlers, that's doing it independent  
See you at the top, we gonna be there any minute  
Living like a Rolling Stone, homie Ronnie Wood  
Tryna get a second home, out in Hollywood  
And pretty girls be the best bandaid, for my self esteem  
Got a Chuck Berry hustle with an Elvis dream

That's why we grind hard, It's no mysterie  
Cause every moment of our life we make write history  
Every moment of our life we write history  
Every moment of our life we write hits, we write hits  
That's why we grind hard, For the victory  
Cause every moment of our life we write history  
Every moment of our life we write history  
Every moment of our life we write hits

And I remember when I first got started  
They told me I was retarded  
Tell me what's worse  
Being broke or broken-hearted, huh  
I was both when my girl left  
Music was the only dream in my world left  
Yeah, and everything in Sam Ash seemed to tempt me  
Ran my credit to the ground for a MP  
Plus an R3, but look at me now  
I travel the world, touring, man look at me now  
We paying with black cards at the drive through  
Black suits, black trucks when we ride through  
And I tell the kids, 'you could do what I do'  
Buckle down homie, focus on that High School  
Yeah, and I paid my dues  
Studio video's got major views  
When I lost my court case I made the news  
So I guess that was a milli, it paid to lose

While we grind hard, It's no mystery  
Cause every moment of our life we make history  
Every moment of our life we write history  
Every moment of our life we write hits, we write hits  
And so we go hard, for the victory  
Cause every moment of our life we write history

Every moment of our life we write history  
Every moment of our life we write hits, we write hits, yeah

And all the fans keep it so real  
That's why we independent man, no deal  
I swear there ain't no stage we won't kill  
We good out in France man, tranquil  
They say that boy Ryan is so ill  
Look at him on the keys man he so skilled  
We getting paid homie, more bills  
Hanging of the balcony of hotels  
Screaming I love my life and

I grind hard, It's no mystery  
Cause every moment of our live we make history  
Every moment of our life we write history  
Every moment of our life we write hits, we write hits  
That's why we go hard, for the victory  
Cause every moment of our life we write history  
Every moment of our life we write history  
Every moment of our life we write hits, we write hits  
That's why we grind hard

We out here trynna do more here than just make it  
We aiming for legendary  
Les
