

## Lovers & Mountains

Ryan Leslie

I'm a show you how I get there  
I'm a show you how I work that out  
No doubt yea huh  
You attracted to the danger  
I embrace you like a stranger would  
And it's so good

Yea, my chain swinging, I think it's time you find a new man  
If I can't do it for you baby, then who can?  
You had a couple ex-boyfriends, all they did was talk a lot  
I got a couple fast cars in the parking lot  
And if you like I take you out for a spin  
Ain't no I in 10 but guaranteed that it's the I in win  
I'm winning like every day, stunting in every way  
They ain't talkin that money, send em on they merry way  
Les, you know the fresh the J's and nice jeans  
Gold Rollie and black tank, couple nice rings  
But you could strip me of every piece of the jewelry  
And I'm still a gem, black bonded leather, the latest from Phillip Lim  
The style so elevated  
In a class of my own and still celebrate it  
You need a change of scenery, a new approach  
Let me help you forget that you ever flew in coach

Lovers and mountains fall (they fall)  
Lovers and mountains roam (through time)  
All it takes is a minute  
First kiss, then you find yourself in it yea  
Lovers and mountains fall through time  
Lovers and mountains fall through time  
Through time, baby through time

My homie told me you was way too young, born in the 90's  
Body like Kim with the beauty of Aphrodite  
They hate us for our wealth, we wrong for the money  
Vacation for our health, we bronze when it's sunny  
We lookin like an item, shoppin bags filled with new clothes  
We overnight them so we could travel light  
You perfect in the light, ferocious in a fight  
Instigating on purpose just so we can reunite  
I candle the flame, words to ignite you  
Ice on the small of your back, to excite you  
I'll give you chills, do it for the thrill  
Even when you hate me baby, I love you still, it's real

Lovers and mountains fall (they fall)  
Lovers and mountains roam (through time)  
We don't own the time (through time)  
Said it's not yours or mine  
But we still fall  
Lovers and mountains fall through time  
Lovers and mountains fall through time  
Through time, baby through time

You attracted to the danger  
I embrace you like a stranger would  
And it's so good

So good  
I'm a treat you like your birthday  
Let me show you what you're worth babe  
In only the way I could  
Cause lovers and mountains fall

Lovers and mountains fall (through time)  
Lovers and mountains roam (through time)  
Said you can't be afraid to fall (through time)  
Through time  
Lovers and mountains fall baby through time  
Lovers and mountains fall through time  
(R Les) baby through time
