

# My Everything

Ryan Leslie

I never would've thought it would happen to me  
I always was a bachelor happy to be  
I used to take advantage of being that way  
And sample different ladies for different days  
She threw me for a loop when she walked in my life  
Said she wanna settle, I put up a light  
Almost had to leave her for havin' a crush  
'Cause I thought a commitment was really too much

Now I can't deny  
I switched the way I live and  
She's the reason why  
I gotta keep it real  
Yeah!  
'Cause I know that love is what I feel

My all, my all is not enough  
To really show, to show, to show how much  
I can't explain the way I need her touch and so  
I give her anything, 'cause she's my everything  
My all, my all is not enough  
To really show, to show, to show how much  
I can't explain the way I need her touch and so  
I give her anything, 'cause she's my everything

Listen,  
I ain't afraid to say that I found a good thing  
She ain't afraid to show that she wearing my ring  
And be there thru the struggle for better for worse  
Until they lay me out in the back of a hearse  
In return I give her the option to be  
In the states or travel to shop overseas  
'Cause any way I look at it she is the one  
I settled down with her and I'm still havin' fun

All my educated woman can feel me 'cause she's the one  
I give her anything, 'cause she's everything  
All my independent ladies can feel me 'cause she's one  
I give her anything, 'cause she's my everything

She's everything I need  
She's everything
