

Ready Or Not

Ryan Leslie

I can go a long time, can you keep up with it?
I know you'd be worried bout where I be tonight
I know you're worried whether or not I'm committed
Don't ask no questions and I swear baby, we'll be alright
Yea we'll be alright underneath the neon light
I'm a supernova, you be a meteorite
That means you hard as you fall towards the earth surface
Can't touch you at all, them other girls worthless
You a hurricane in the dressing room
I ain't stupid, I'm knowing it's gon be messy soon
But when the dust settles and you emerge
I'll applaud you like a Broadway player, Venus refer
Fresh off the page of the Vanity fair
The best dress in the dress spot, quesque hier
Only put you in the dress to undress your bed
If you aksing, baby yes we there so rock with me

Whether you ready or not, we right here (right here)
This is the moment for making love
I don't care if the neighbors might hear
Now we get down, get down
Whether you ready or not, we right here (right here)
This is the moment you're waiting for
I don't care if the neighbors might hear
Now we get down, get down

And the stairway you be building there's a lot of traffic
We do it for excitement, I don't care who sees
Right now, I'm asking and I hope you're willing
In the opening secrets that be your fantasy
R. Kelly said the best - I hear your body calling
So why are we stalling? Did I heed you wrong?
Let's take advantage of this moment that we here alone
Baby work for this camera that you're appearing on
Go, go, go and get it girl
Give me everything you got like there's no tomorrow
Go, go, I know you with it girl
Let me make this movie hot like I'm Modevar
And I know you are pleased to see me
The kitchen kind is cold but the scene is steamy
And like the re-run that you seen on TV
I'm a rub like dream of genie, that's classic

Whether you ready or not, we right here (right here)
This is the moment for making love
I don't care if the neighbors might hear
Now we get down, get down
Whether you ready or not, we right here (right here)
This is the moment you're waiting for
I don't care if the neighbors might hear
Now we get down, get down

So don't be scared if you ain't prepared
I know it's people everywhere and it's illegal here
But since time flies and we all die
Let's make a movie, one time for the archive
Let's do it one time for the lovers

And one time for the haters jealous of us yea
Just give it to me girl
Baby, just give it to me
Right here, right here, right here

And this is the moment for making love
I don't care if the neighbors might hear
Now we get down, get down
Whether you ready or not, we right here (right here)
This is the moment you're waiting for
I don't care if the neighbors might hear
Now we get down, get down
