

Something That I Like

Ryan Leslie

Is it the accent, the height, or the way she walkin
Am I, am I dreamin or am I sleepwalkin
Got my arms outstretched so I don't bump into her
Silly me, now I'm so into her
Fashion, to her style of dress
And I'm lookin in the mirror like do I look fresh?
Do I, do I look fresh enough to get her
If I see her one time then I wont forget her
Cuz I, I took a picture mentally
When I pulled up in a black on black Ben-t-ley
And I, I really feel like she was meant for me
If she wasn't then I know she was sent for me
Cuz she, she's the only one that made me chase
Got me singin love songs like Babyface
And I tried to one-night her but she made me wait...
She made me wait.....

And so I think she got somethin, she got somethin
Think she got somethin, somethin that I like
Somethin I like
So I think she got somethin, she got somethin
Yea, she got somethin, somethin that I like, ohhh
(Now break it down like)
She's...got that somethin
She got that somethin, that I like
(Say it again like)
She's got that somethin
She got that somethin that I like

I slow it down before I pick her up
It's eight o'clock now and we datin
Inevitably dude's be hatin
But I, I still gotta flaunt my chick
I laugh, no surprise that they want my chick
She's, more than they can comprehend
British dude's idolize when they copy him
He's just too witty, game is too gritty
Look at his track record man there's too many
Tens, that's too many to count
I spend, that's at any amount
No matter the sum homie, got the cash to cover it
And when I'm wantin seeds, she'll be fast to mother it
Yea, just so she can take my ends
Would I let her do it? hmm, well that depends
Can she raise a young king? My blood is royal
And if she can't man, it ain't a thing, let's boil her

And so I think she got somethin, she got somethin
Think she got somethin, somethin that I like
Somethin I like
So I think she got somethin, she got somethin
Yea, she got somethin, somethin that I like, ohhh
(Now break it down like)
She's...got that somethin
She got that somethin, that I like
(Say it again like)
She's got that somethin

She got that somethin that I like
