

To The Top

Ryan Leslie

Uhh, Yeah,
Lets Rock with me
R.Less, hey, let me do it
Yeah,

Im just trying to play my position,
If you seek, let me be your physician
Guarantee Im the piece youve been missing,
In Your Life Baby
Let me say its a pleasure to know ya,
If you gave the cheeks I will show ya
I got so much love in here for ya
You should take it yeah

(Tell me how to get (?) wit you)
Cause the minute you said hello,
You already knew that you had me baby yeah
(I just wanna (?) wit you)
Cause I was thinking that we could take this further than friendship
From friendship to love

Girl you know I wanna take you
Straight Up to the top
And when we get there up promise you dont wanna come down
Wont Come down
So thats why I wanna take you
Straight Up to the top
And when we get there up promise you dont wanna come down
Makin Love on my cloud

I just gotta follow my intuition
Let me be that Scratch for your Itchy
Im your genie I (?) what you whishing
Just say, oh oh
Im convince that you need me
Thats funny cause girl you complete me
Now just sleeping but feel like Im dreaming
Baby when youre with me

(Tell me how to get (?) wit you)
Cause the minute you said hello,
Right there you knew you had me baby and I
(I just wanna (?) wit you)
And I was thinking that we could take it further than a friendship
From friendship to love

Girl you know I wanna take you
Straight Up to the top
And when we get there up promise you dont wanna come down
Wont Come down
So thats why I wanna take you
Straight Up to the top
And when we get there up promise you dont wanna come down
Makin Love on my cloud

And I promise you wont wanna come down
I will lift you and then I spin you right around

(Which will make our way up to the clouds)
And somehow you will take hold of my hand
And I will guide you
I be taking you, taking you, taking you straight to the top

Girl you know I wanna take you
Straight Up to the top
And when we get there up promise you dont wanna come down
Wont Come down
So thats why I wanna take you
Straight Up to the top
And when we get there up promise you dont wanna come down
Makin Love on my cloud
