

# You're Not My Girl

Ryan Leslie

I hear them talking cause they seen us around  
Got them guessing about what's really going down  
And if they find out that we do what we do  
Girl I doubt if they'd believe it was true

So I'm thinking that we should just be good friends  
If we continue this way we'll only just hurt each other  
So I'm thinking that we should just be good friends  
Go through the motions, so we don't blow the cover

You could call my phone, you could swing over my way  
On your nights alone, you could come over my place  
If he treats you wrong, let me give it to you my way  
Just remember that you're not, you're not my girl

Indiscretion makes this love affair sweet  
Without theses secrets it would feel so incomplete  
So we should keep our quiet nights between us  
So we'll retain our urgency when we touch

So I'm thinking that we should just be good friends  
If we continue this way we'll only just hurt each other  
So I'm thinking that we should just be good friends  
Go through the motions, so we don't blow the cover

You could call my phone, you could swing over my way  
On your nights alone, you could come over my place  
If he treats you wrong, let me give it to you my way  
Just remember that you're not, you're not my girl

Now you can rock to the rhythm of the beat now don't stop  
And as long as you do yours I'll do my job  
Cause I really like this good thing that we've got  
So we'll just keep it a secret baby, you're not my girl

So I'm thinking that we should just be good friends  
If we continue this way we'll only just hurt each other  
So I'm thinking that we should just be good friends  
Let's just keep it a secret baby, you're not my girl

You could call my phone, you could swing over my way  
On your nights alone, you could come over my place  
If he treats you wrong, let me give it to you my way  
Just remember that you're not, you're not my girl

You could call my phone, you could swing over my way  
All your nights alone, you could come over my place  
If he treats you wrong, let me give it to you my way  
Just remember that you're not, you're not my girl
