

# Straight Up The Middle

Ryan Malcolm

I've been knocked down  
I'll get myself together  
Face to the ground  
I know it's now or never  
This will be the last time

I comin' at ya  
Straight up the middle  
Nothing can pull me down  
I'm gonna drive it straight up the middle  
Nothing can stop me now  
I'm gonna drive it straight up the middle  
No one will ever bring me down

I fall back down  
Can't pull myself together  
When I come around  
You're in for nasty weather  
This will be the last time

Push me around  
You should know better  
Face to the ground  
It's now or never

[Chorus 2x]
