

You Made This Fool Become A Man

Ryan Malcolm

Travelling on the road to nowhere, and I was driving much to fast
Trying to be ahead of things, but I always ended last
I'm a big city kid, with a big city life, that's all I know
I'm aiming for the sky, but I'm always hittin' low
You came in and held me out, just like a miracle
You gave me strength to realize

When I had nowhere else to turn,
You taught me lessons to be learned
You made this fool become a man
When I was down, when I was out,
When I just couldn't understand,
You made this fool become a man

Love's the only reason, that could change a guy like me
She makes me see the small things that I didn't get to see, before
You came in and held me out just like a miracle,
You gave me strength to realize

She's been movin' through me
Now I'm never lonely,
Time, is mine, forever

[Chorus 2x]
