You Made This Fool Become A Man

Ryan Malcolm

Travelling on the road to nowhere, and I was driving much to fa st

Trying to be ahead of things, but I always ended last I'm a big city kid, with a big city life, that's all I know I'm aiming for the sky, but I'm always hittin' low You came in and held me out, just like a miracle You gave me strength to realize

When I had nowhere else to turn, You taught me lessons to be learned You made this fool become a man When I was down, when I was out, When I just couldn't understand, You made this fool become a man

Love's the only reason, that could change a guy like me She makes me see the small things that I didn't get to see, bef ore

You came in and held me out just like a miracle, You gave me strength to realize

She's been movin' through me Now I'm never lonely, Time, is mine, forever

[Chorus 2x]
