

# My Life with You

Ryan Star

When I was a kid, I'd travel-  
To all the different places inside my head.  
But nothing compares to my life with you.  
And I can build a million castles-  
I can wish upon all the lucky stars.  
Nothing compares to my life with you.

Streetlamp's out; it's getting cold-  
I told you I don't want your coat.  
I'm better off in your arms-  
I can't believe we went so far that night-  
Underneath the burning stars-  
We saw light.

When I was a kid, I'd travel-  
To all the different places inside my head.  
But nothing compares to my life with you.  
And I can build a million castles-  
I can wish upon all the lucky stars.  
Nothing compares to my life with you.

It's getting late, your sisters call-  
And we pretend our phones are off.  
Yeah, I can't stop the moving clock-  
I never wanted us to part that night-  
Dancing on your father's car-  
We were so high.

Ohh-  
Ohh.  
Ohh-

I'd find you...

When I was a kid, I'd travel.  
When I was a kid, I'd travel-  
To all the different places inside my head-  
To all the places inside my head.

When I was a kid, I'd travel-  
To all the different places inside my head.  
But nothing compares to my life with you.  
And I can build a million castles-  
I can wish upon all the lucky stars.  
Nothing compares to my life with you.

Ooh-  
Ooh.  
Nothing compares to my life with you.  
Ooh-  
Yeah.  
Ooh-  
Yeah.  
Ooh-  
Ooh.
