

Take a Ride With Me

Ryan Star

You're gonna take a ride with me
I'll shake you from your cherry tree
If you'll ever take a ride with me
I'll break you and your cherry tree

And if you turn around here
I will disappear
And if you turn around here
Nobody will hear
A little girl who lost her way back home

If you take a ride with me
I promise you some ecstasy
If you ever take a ride with me
Lovers love what love can be

And if you turn around here
I will disappear
And if you turn around here
Nobody will hear
A little girl who lost her way back home
A little girl who lost her way back

Oooo

If you turn around here
I will disappear
And if you turn around here
Nobody will hear
A little girl who lost her way back home
A little girl who lost her way back
