

Not 2 Luv U

Ryan Tedder

Not to love you, not to love you, not to love you, not to love you
Not to love you, not to love you, not to love you..

It's like you were the sun
And I've been spinning in your orbit
I tried to run but you got me where you wanted (yeah)
I don't know how it took so long to see
The love for you is poison for me

Now I won't say its been nice to know ya
Cos you don't even know me
I don't wanna expect this without I wrote ya
And you ain't gotta own me
Because I wanna know what it's like (like, like, like)
I said I wanna know what it's like

Not to love you, not to love you, not to love you, not to love you
Not to love you, not to love you, not to love you, not to love you

I'm out the door
Put on some high heels and make up
You say what for I say give me a minute i'm on place(eh eh)
You see this ain't some stupid game when you hold the head
You're so confused but then again you just a man, so..

Now I won't say its been nice to know ya
Cos you don't even know me
I don't wanna expect this without I wrote ya
And you ain't gotta own me
Because I wanna know what it's like (like, like, like)
I said I wanna know what it's like

Not to love you, not to love you, not to love you, not to love you
Not to love you, not to love you, not to love you, not to love you (2
x)

I'm out the sun
I've been spinning in your orbit
With nowhere to run when you burn me i just ignore it

Now I won't say its been nice to know ya
Cos you don't even know me
I don't wanna expect this without I wrote ya
And you ain't gotta own me
Because I wanna know what it's like (like, like, like)
I said I wanna know what it's like x2
Not to love you, not to love you, not to love you, not to love you
Not to love you, not to love you, not to love you, not to love you
