High

RyanDan

Well here I am with so much to offer
Nothing to do but be here today
Giving myself is the best I can do if I needed
Use my strength in anyway

If we all work together
We would be stronger
If we all open our eyes
We could see further
If we all stand tall enough
No one can beat us
If we all hold our hands up high
We can carry the world

And all I ask is that we be honest
Do what we can if we're gonna stay
I want to make you a promise, love and understanding
Is the game I wanna play

If we all work together
We would be stronger
If we all open our eyes
We could see further
If we all stand tall enough
No one can beat us
If we all hold our hands up high
We can carry the world

With my hands
With my feet
When I dream
When I sleep
From the sun here inside
I believe

If we all work together
We would be stronger
If we all hold our hands up high
We can carry the world

If we all work together
We would be stronger
If we all open our eyes
We could see further
If we all stand tall enough
No one can beat us
If we all hold our hands up high
We can carry the world
