

## In Us I Believe

RyanDan

At the first sight of you  
I knew that you were special  
Oh you left me warm but confused  
I loved you so that I  
Could not breathe  
Because in us I believe

When we are apart  
I still can feel you with me  
I can trace every line in my mind  
You are etched all over the heart of me  
Because in us I believe

And we have all the time in the world  
You and me  
Because in us I believe  
Yes, in us I believe
