

# A Day To God Is 1000 Years

RZA

Yo, yo, the A-1 sauce, the Divine Force  
My mind blind force is known to blow time off course  
Even, if I rode around the world on a blind horse  
Strapped down, I'd still get my point across  
Allah is father of all  
You debate whether big, whether small  
Whether short, whether tall  
Whether dense, whether length  
Whether strength, whether width  
Either man, animal, bird or fish  
Whether, black or white, more shapes than snowflakes  
Existin', everywhere but you still can't locate  
The man of steel couldn't bend me  
Time couldn't end me  
Even the great devil Satan that tried to befriend me  
Understand the equality, God in a bodily  
Form, lettin' my knowledge be born  
Lettin' my knowledge be born...

'I wanna stay with you, forever''

Yo, yo, yo  
I be the fatal flyin', I'm like NATO flyin'  
Over your country and droppin' down forty tons of iron  
Filled with explosives, your chance is hopeless  
We have your head poppin' up like the blowfish  
I'm not talkin' Hootie, nigga pass the zootie  
I could bag the cootie, maybe smoke the ootie  
The runaway train with no track  
I got the heart of Faye Dunaway whippin' that child with the coatrack  
T.V. droppin' bombs or droppin' germs  
Baby moms in the courthouse, she's droppin' terms  
Guns go off, bustin' all directions  
D.J. choose, another fuckin' dope selection

'...with you forever...'  
'Like the corners of my mind....'  
'I wanna stay with you, forever''

Yo, the pen is mightier than the sword, as I face my worldly challenge  
In the scale of justice and my heart remains balanced and neutral  
My respect for all men is mutual  
As my thoughts surpass a level to which you devils compute to  
You've been given the chance to hear the true and living  
So do the knowledge, son, before you do the wisdom  
So you can understand, how the thunder and  
Lighting above your head is caused by the Son of Man  
We experimentin' with high explosions  
That cause the place to quake and the surface erosions  
The earth produce lava like the mouth produce saliva  
This wisdom goes deeper than your scuba diver  
In search for the pearl jewels sold to Tiffany  
My verbal heart symphony will strike the epiphany  
Insight, ignite, and then men might, see love and hell  
Hell and right, then excel, to be masters of your circumference  
First, by obtainin' mastery of your common sense  
This supreme wisdom clears a man's vision

You can see it through the lies and the fantism  
Of the equivocal, two-faced political individual  
Who's only out for residual, fabricatin' lies  
To eradicate the wise  
But we come to civilize and gravitate to the skies  
Of the heavenly celestial sphere  
Trust me, son, it's dear, in between your ears

A day to God is a thousand years  
Men walk around with a thousand fears  
The true joy of love bring a thousand tears  
In the world of desire, there's a thousand snares

'I wanna stay with you forever'
