

# Deadly Venoms

RZA

Yo here we go yo  
The Prince Rakeem, this here is called my deadly venom  
You know what I'm sayin?  
Some old freestyle type of slick slang  
For you and your gang  
Girls so ya'll can kinda sweat this  
Check it out and ya' don't quit

And many brothers know me for what?  
My bag of bitches  
But I'm also known for giving stitches  
A buck 50 for those who get nifty  
That's why your ass so fast to call me swifty  
And here I go and here I go  
Hey yo go out like Bo and act like ya' know  
That ya' can't beat me or bring me  
The least bit of harm  
Sssss, um um, uh uh  
Heck no, I keep a sucker brain petrified  
When I grab the mic I won't let go, I'd  
Rather go live forever and ever and ever  
Let it go? Never  
Assume a lot of boys are doomed  
Without being tuned  
To many many many moons  
As the champ that blast through your amp  
I can't get weak cause my style can't cramp  
I'm rugged like Guess black denim  
Battles ya'll know I always ran 'em  
When it comes to rappers, they're seeds  
I'll plant 'em  
As I eject ya' wit' a dose of deadly venom  
This is the way I like to parle  
And amputate to the words I say  
The tormentor, take you on a mad adventure  
Through an episode that's cold like the winter  
Check your checklist  
And see if you can wreck this  
You thought I was a lover  
And didn't expect this  
Style I specify but now you can testify  
Thee not a less the best is I

Deadly Venoms  
Deadly Venoms kid  
Check it out yo

No time for charades or masquerades  
It's more rugged shit with the kid with braids  
And I like brothers to step up and show what they got  
And watch 'em drop on the spot  
And pop the corns  
Just raw like crumbs from my tongue  
Cause you're small like Tom Thumb  
But I'm great, up to date and elevate  
Rhymes I design  
I write with paper mate

I stimulate your thoughts  
Can't take shorts  
Won every battle that I ever fought  
So friend or foe  
Who want to go toe to toe?  
Yo you know you're gonna fall below  
Zero don't try to play hero  
Like um, Robert DeNiro and Crazy Shapiro  
But I exempt not to be a wimp  
I walk with a limp of a Roscoe pimp  
I'm a slickster  
Who's out to get your sister  
You disagree with me? Fuck you mister  
So uncanny brothers can't stand me  
I'll take the panties from your mammy and your granny  
Rap crusader, bam boom invader  
Sex capader and also a panty raider  
So protect your property  
'Cause when it comes to baggin' girls  
No one is stopping me  
Or getting rid of me  
I'm the epitome  
Even cold fuck the statue of liberty  
That's the way that I am though  
Yea Rakeem wit' a rugged deadly venom (venom)

Yea check it the deadly venom (venom)  
Word, the deadly venom kid  
Yea a deadly venom (venom)

Suckers step to me and think they can do me  
Your style is screwy like Hong Kong Fuey  
You can't push me, rush or mush me  
Dust or crush, or even ambush me  
'Cause I'll play ya' right out of position  
See through your mission with x-ray vision  
And once I see ya' I get Scrooge like Ebenezer  
Crush ya' like black Caesar  
After that I'll leave ya'  
Hit 'em wit' a symptom of Rakeem fever  
You get strung, hung, swung  
Done, by a witty rap tongue  
>From a young man who understood  
What it takes to be good  
Make a rhyme sound like it should  
Susa I'm makin' this style looser  
I turn men to stone like Medusa  
You get blown and thrown off course  
Feel the remorse  
You're forced to take a loss  
I get crazier  
Slay ya' like Hell Raiser  
Style amaze ya' I'm rugged like a trail blazer  
Then I crash right through your  
Lyrics I sued 'em  
They're moving like U-Haul  
Booming 'em, doing 'em, wrap 'em  
Like aluminum fo-o-oil  
Your plans got spoiled  
Rhymes will affect ya'  
Who loves to wreck ya'?  
I laugh in your face like I'm Woody Woodpecker  
(mocks Woody Woodpecker's laugh)

You can't get with the Ra'  
Deadly venom

Word, Know what I'm sayin?  
The Prince Rakeem strikes again  
Never hit below the belt although the blow is felt  
I wanna say peace to the DMD posse  
And the gladiator posse  
And the whole Staten Island posse  
And the funky president Mel Kwan
