Boulevard life, remember late nights?

Mama stomach touchin' a bed, two bids

Cats sacky in Comstack, retire from the crack

I'm askin' Allah that the warm Hennessy help me

I ain't chose the struggle, the struggle chose me

Lord forgive me fore I have stolen from my brothers

Snaked my brothers, even killed my brothers

Familiar fishscale, everybody plays the fool

The +Older Gods+ givin' me jewels

The younger Gods givin' me tools

Solomon Allah, I feel I was jerked

To the drug dealers, my baby mother's a flirt

Holey socks, one fatigue suit, what you feel it don't hurt?

That's my problem now, I ain't afraid to talk

Still cop coke from the well Willy

When I was young I got robbed from the neighborhood bully 'Til he forced me to hit him with the nine milli'
Now him and his click know that I'm a thug fully
