

Good Times

S Club 7

It's for the good times, baby

You're working too hard
Too many hours on the job
And you know
It must get better than this
You're killing yourself
And missing your love
It's been weeks
Since you've been out with your friends

We all need a change once in a while
The time to make a change is right now

R: This is for the good times, good times
This is to the good life
This is for the good times, good times
This is to the good life
Make it easy baby, here's to good times

The pressure's on
Boss is breathing down your neck
But the only thing you see
Is the vacation pamphlet on your desk
You fantasise the day
You leave it all behind
To spend the best days of your life just lying in the sun

We all got to change once in a while
The time to make a change is right now

R:

It's for the good times baby

We all need a change once in a while
The time to make a change is right now
