

## Secret Love

S Club 7

I come to see you every night  
All on my own nobody knows  
The way that you're dancing  
The look in your eyes  
How your body moves, I'm hypnotized

I can't show my feelings  
When I'm around you  
But I can't hide this secret, secret, secret  
Like I do

I see the fire in your soul and it drives me wild  
The music's burning in my heart, I feel desire  
When you dance I lose control  
Passion leads me on, to the point of no return  
My secret love

Underneath the moonlight I imagine us kiss  
All of my dreams are starting like this  
Way down town, I'm out of my depth  
Why am I here, What do I expect

But I can't find my feelings  
When I'm around you  
But I can't hide this secret, secret, secret  
Like I do

I see the fire in your soul and it drives me wild  
The music's burning in my heart, I feel desire  
When you dance I lose control  
Passion leads me on, to the point of no return  
My secret love

The way you move so fiery and strong  
Dark latin heats me up as the beat goes on  
Your moody stare sends shivers down my spine  
The more I watch the more my temperature climbs  
And my secret shines

I see the fire in your soul and it drives me wild  
The music's burning in my heart, I feel desire  
When you dance I lose control  
Passion leads me on, to the point of no return  
My secret love

I see the fire in your soul and it drives me wild  
The music's burning in my heart, I feel desire  
When you dance I lose control  
Passion leads me on, to the point of no return  
My secret love
