

# The Colour of Blue

S Club 7

I have always wondered  
How it can be done, to pick the one  
Who's gonna be my lover for life, my baby  
Be there to hold me through the night  
When it happens you can see it in his eyes  
They tell no lies, brighter than the sky in July, my baby  
Cooler than anyone I've known

The colour of blue  
Reminds me of you  
I never see grey, green, black  
You're true  
The colour of blue  
No other will do  
In my heart I only feel  
The colour of blue

I say, If you ever felt the way I do, then lucky you  
So never go for less than a perfect thing  
Seek and then hopefully you'll find  
There's a rhythm and a rhyme, you've gotta find it  
Then you'll see  
Cos baby, we can go on all night, just dancing  
Doin' it till the break of dawn

The colour of blue  
Reminds me of you  
I never see grey, green, black  
You're true  
The colour of blue  
No other will do  
In my heart I only feel  
The colour of blue

In the rainbow I can see, colours of misbelief  
There is only one for me, and it will forever be

The colour of blue  
Reminds me of you  
I never see grey, green, black  
You're true  
The colour of blue  
No other will do  
In my heart I only feel  
The colour of blue
