

We Can Work It Out

S Club 7

Tell me why you look fed up,
Two heads are better than the one.
Tell me why you look so sad,
Surely things can't be so bad.

Don't you worry 'bout a thing,
Cause me and you, we can solve anything.
Don't you feel you're all alone,
Cause that's not true, that's what friends are for.

R: Woah, woah, woah, we can work it out now baby,
Woah, woah, woah, we can work it, we can work it,
Woah, woah, woah, we can work it out now baby,
Woah, woah, woah, we can work it on out.

Tell me when and where to meet,
Cause you know friendship's a two way street.
We've been friends forever now,
Haven't we always helped each other out.

Don't you worry 'bout a thing,
Cause me and you, we can solve anything.
Don't you feel you're all alone,
Cause that's not true, that's what friends are for.
