

You

S Club 7

You are all I need to get me through
Like a falling star I fell for you

Sweet anticipation
It's giving me the butterflies
And my heartbeat's racing
Cos loving you is beautiful
When you're so irresistible

So don't stop
What you're doing baby
So good
And it drives me crazy
One touch
I'm in heaven
Cos loving you is so beautiful baby cos...

You are all I need to get me through
Like a falling star I fell for you
You have taught me how to love
An angel sent from high above
Now I know that all I need is you

Cos I need you and you need me
And we'll always be together

Before I knew what love was
I always ended up in tears
It's just the way my world was
Until you walked into my life
It's something that I just can't hide

Real love
Has come my way
And I know
That it's here to stay
And it feels
Like never before
Cos loving you is so beautiful baby cos...

You are all I need to get me through
Like a falling star I fell for you
You have taught me how to love
An angel sent from high above
Now I know that all I need is you

Cos I need you and you need me
And we'll always be together

Cos I need you and you need me
And we'll always be together

You're my inspiration
My world just seems a brighter place
I just wanna tell you
I've never ever felt this way
I've never thought I'd see the day

Real love
Has come my way
And I know
That it's here to stay
And it feels
Like never before
Cos loving you is so beautiful baby cos...

You are all I need to get me through
Like a falling star I fell for you
You have taught me how to love
An angel sent from high above
Now I know that all I need is...

You are all I need to get me through
Like a falling star I fell for you
You have taught me how to love
An angel sent from high above
Now I know that all I need is you
