

I Want You Around

S Club 8

Can I make the rain drops fall on the desert sand
Can I pick you up and fly you to a wonderland
Can I stop the world from turning just to make the day last
Can I make you smile in the future and forget the past

Can you make my heart skip a beat when you hold my hand?
If you ask me too
Can you be my soul protector and my number one fan?
If you ask me too
Can you be the lead in a movie with aimless cast?
If you ask me too
Can you be the one to make me fall in love so fast?
If you ask me too

I could spend all day
Tryna tell you
All the ways that I adore you
But I'll simplify and say

I want you around
You gotta a smile so gifted
It can disappear a frown
Ooh you got me uplifted every day
I want you around
I hang on every word you say
I know it's not original or profound
But I want you around

Would you steal all the stars out the sky for me (If you ask me to)
Would you fall a thousand miles just fall with me (If you ask me to)
Would you commit a thousand crimes to do with some time with me (If you ask me to)
Would you lie to your family and your friends for me (If you ask me to)

I could spend all day
Tryna tell you
All the ways that I adore you
But I'll simplify and say

I want you around
You gotta a smile so gifted
It can disappear a frown
Ooh you got me uplifted every day
I want you around
I hang on every word you say
I know it's not original or profound
But I want you around

Can I make the rain drops fall on the desert sand
Can I pick you up and fly you to a wonderland
