

# One Thing I Know

S Club 8

I see you everyday  
I wonder who you are  
Waiting for the evening train  
It's gonna take me home

Try and guess your name  
And then you catch my eye  
It's funny how that in my dreams  
You're gonna rescue me

And when I see your face tomorrow  
You won't know my name  
But I'll still feel the same

Only thing I know  
One thing's for sure  
You'll never find another one like me  
Know you want it I can see it

This time I know  
I should be getting to  
know you better I'll be there  
Cos all you're ever gonna need  
Is a girl like me

Is this just a game  
Or do you feel the same  
Everytime you smile at me  
I wanna take you home

And when I see your face tomorrow  
You won't know my name  
But I'll still feel the same

Only thing I know  
One thing's for sure  
You'll never find another one like me  
Know you want it I can see it

This time I know  
I should be getting to  
know you better I'll be there  
Cos all you're ever gonna need  
Is a love like me

This time I know  
Cos all you're ever gonna need  
Is a love like me

Only thing I know  
One thing's for sure  
You'll never find another one like me  
Know you want it I can see it

Only thing I know  
One thing's for sure  
You'll never find another one like me

Know you want it I can see it  
This time I know  
I should be getting to  
know you better I'll be there  
Cos all you're ever gonna need  
Is a love like me [To Fade]
