

Waste Your Time On Me

S Club 8

You know that I've got something special
I feel so lucky to be me, you'll see
Some people say that I'm a princess running wild
But don't waste your time with them, just look into my eyes

Cause now you're under my spell and I'm not gonna set you free
But you can hitch a ride on my star
Ya better believe that I want you and you need me
It's time to make some history
So, why'd you have to go and waste your time on her?
Waste your time on me
Yeah, me
Waste your time on me
Yeah, yeah

Ah, ah, ah
Some people say that I'm superficial
Ah, ah, But's that a compliment to me
Because... I'd rather be a super something than a boring anything else
Just take one look at me and throw your heart in the wishing well, cause I'm your Jezabel

Now I'm under your skin and I'm not gonna set you free
But you can hitch a ride on my star
Ya better believe that I want you and you need me
It's time to make some history
Why'd you have to go and waste your time on her?
Waste your time on me
Yeah, me
Waste your time on me
Yeah, yeah
Ah, ah, ah

Hit the top, you're the first lady
Blow it up cause you're the bomb baby
Break a leg, sing your song lady
Knock 'em dead and bring it on baby

I want to save the whale and start a charity
But just as long as I can keep all eyes on me

Now your under my spell and I'm not gonna set you free
But you can hitch a ride on my star
Ya better believe that I want you and you need me
It's time to make some history
I'll blow your mind, don't spend your time on D list personalities
Forget the rest, cause I'm the best, turn on the highs and worship me
Why'd you have to go and waste your time on her?
Waste your time on me
