## Anytime, Anywhere

Do do

I know life sometimes can spin your head around Don't let the world get on top of you, turning you upside down

Better days are comin' Just remember one thing Wherever you are near or far You know you're never alone

Anytime, Anywhere You can call on me and I'll be there Someone you can rely on Be a shoulder you can cry on Anytime, Anywhere You can trust in me I'm always there To give you all my lovin' Say the word I'll come runnin' Anytime you need me to, I'll be there for you

Do do

Sometimes I can't see the light though it's shining all around It's all right the future is bright and the walls will come tumbling down

Better days are comin' Just remember one thing Wherever you are near or far You know you're never alone

Anytime, Anywhere You can call on me and I'll be there Someone you can rely on Be a shoulder you can cry on Anytime, Anywhere You can trust in me I'm always there To give you all my lovin' Say the word I'll come runnin' Anytime you need me to, I'll be there for you
