

# Here We Go

## S Club Juniors

Here we go  
Come on get the party started  
Come on get the party started  
Get the party started  
S Club Juniors

Give it up, get in on, sing along  
Come on, I say here we go

All friends together  
Havin' a party under one roof  
You can bring your best friend  
You can do what you wanna do

And we'll all have good times  
We can dance through the night  
We can sing till it's light  
I say here we go

Give it up, get in on, sing along  
Come on, I say here we go  
Stand in line, clap in time, everyone catch the vibe  
Come on, I say here we go  
Here we go

Here we go, here we go, here we go

And now the music's getting louder  
Everyone's jumping to the beat  
And when the rhythm hits you  
You just can't help but move your feet

Here we go, here we go, here we go  
S Club Juniors tonight  
Here we go, here we go, here we go  
I say here we go

Come and join the party  
Time to catch the good vibe  
Everybody's dancing now  
I say here we go  
Come and join the party  
Time to catch the good vibe  
I say here we go
