

Here We Go

S Club Juniors

Here we go
Come on get the party started
Come on get the party started
Get the party started
S Club Juniors

Give it up, get in on, sing along
Come on, I say here we go

All friends together
Havin' a party under one roof
You can bring your best friend
You can do what you wanna do

And we'll all have good times
We can dance through the night
We can sing till it's light
I say here we go

Give it up, get in on, sing along
Come on, I say here we go
Stand in line, clap in time, everyone catch the vibe
Come on, I say here we go
Here we go

Here we go, here we go, here we go

And now the music's getting louder
Everyone's jumping to the beat
And when the rhythm hits you
You just can't help but move your feet

Here we go, here we go, here we go
S Club Juniors tonight
Here we go, here we go, here we go
I say here we go

Come and join the party
Time to catch the good vibe
Everybody's dancing now
I say here we go
Come and join the party
Time to catch the good vibe
I say here we go
