

# Only You

S Club Juniors

I thought I'd write it in a letter  
As I'm too shy to say it to you  
I guess I should've known better  
But I don't know what else to do

I'm on my way  
No turning back  
So take me in your arms  
And then we'll be right on track

I write these words to you  
To tell you just what you mean to me  
I hope you like these lines  
Cause I love you even more than yesterday  
And all I say to you is true  
Will you leave time to me  
I'll wait and see  
Cause all I need is you  
Only you

You helped me through the stormiest weather  
Your what I need to guide me through  
Without you nothing else matters  
Your something I look forward to

You make my day  
No holding back  
So take me in your arms  
And then we'll be right on track

I write these words to you  
To tell you just what you mean to me  
I hope you like these lines  
Cause I love you even more than yesterday  
And all I say to you is true  
Will you leave time to me  
I'll wait and see  
Cause all I need is you  
Only you

All I say to you is true  
Because to me there is  
Only you

You make my day  
No holding back  
So take me in your arms  
And then we'll be right on track

I write these words to you  
To tell you just what you mean to me  
I hope you like these lines  
Cause I love you even more than yesterday  
And all I say to you is true  
Will you leave time to me  
I'll wait and see  
Cause all I need is you

Only you

It's only you

It's only you

It's only you

[Repeat until fade]
