

# Together

## S Club Juniors

I am naughty but nice  
I am sweetness in light  
I will make your dreams come true

I love to dance through the night  
I love to watch the sunrise  
I wanna wake up bright and new

But when we get together, together

Together we're strong and together we're fun  
And we break every heart baby one by one  
And it doesn't really matter how old or young  
Just try it  
You'll make it  
We know the world is not so great  
We feel the bad times fade away  
Together, we are strong

I don't mean to get mad  
And I don't mean to be bad  
But sometimes I get a little crazy

I love to play like we should  
And I get to feel it so good  
There ain't no angels gonna save me

'Cause when we get together, together

Together we're strong and together we're fun  
And we break every heart baby one by one  
And it doesn't really matter how old or young  
Just try it  
You'll make it  
We know the world is not so great  
We feel the bad times fade away  
Together, we are strong

Whenever you need a friend  
(We're waiting)  
To always lend a helping hand  
(Don't be shy)  
When you're feeling lonely  
When you're feeling down  
Just remember we can turn the world around  
Yeah (can turn the world around)

We know the world is not so great  
We feel the bad times fade away  
Together, we are strong

Together we're strong and together we're fun  
And we break every heart baby one by one  
And it doesn't really matter how old or young  
Just try it  
You'll make it (You're gonna make it)  
We know the world is not so great

We feel the bad times fade away  
Together, we are strong

Together we're strong and together we're fun  
And we break every heart baby one by one  
And it doesn't really matter how old or young  
Just try it  
You'll make it  
We know the world is not so great  
We feel the bad times fade away  
Together, we are strong  
Together, we are strong
