

# You Are The One

S Club Juniors

Have you ever had a friend that never let you down  
Right by your side every night and day  
Always hear you when you're calling  
Catch you when your falling  
Have somebody show you the way

It's okay  
Now I know  
There is a love for everyone  
I will go on  
With you here  
By my side

You are the one I wanna love  
You are the one I'm dreaming of  
Whenever I'm down and feeling lonely  
You are there to hold me  
With you all my troubles are gone

You are the one I wanna love  
You are the one I'm dreaming of  
Whenever I'm down and feeling lonely  
You are there to hold me  
With you all my troubles are gone

You are

Have you ever had a dream or a fantasy  
Do you believe that love will come your way  
Always there to see you smiling  
Hold you when you're crying  
Tell you everything is alright

It's okay  
Now I know  
There is a love for everyone  
I will go on  
With you here  
By my side

You are the one I wanna love  
You are the one I'm dreaming of  
Whenever I'm down and feeling lonely  
You are there to hold me  
With you all my troubles are gone

You are the one I wanna love  
You are the one I'm dreaming of  
Whenever I'm down and feeling lonely  
You are there to hold me  
With you all my troubles are gone

With you all my troubles are gone

And if you ever need me  
There's nothing I wont do  
Believe me it's true

You are the one (oh yeah)  
My only one (my only one)  
I do believe (I do believe, yes I do)  
In you and me (oh yeah)

You are the one I wanna love  
You are the one I'm dreaming of  
Whenever I'm down and feeling lonely  
You are there to hold me  
With you all my troubles are gone

You are the one I wanna love  
You are the one I'm dreaming of  
Whenever I'm down and feeling lonely  
You are there to hold me  
With you all my troubles are gone
