

# I Will Pick You Up

S3RL

When your days turn to dark like night  
The spark is gone that was once alight  
And you feel there's no end in sight  
Just remember

When they bring you down  
Drag you through the ground  
I can pick you up  
Yeah, I will pick you up  
And when they make you fall  
Can't take it no more  
I can pick you up  
Yeah, I will pick you up  
Oh I will pick you up

From the ground when the music plays (Up)  
Take your mind to another place (Up)  
Make your problems seem to disappear (Up)  
Help you free yourself from your fears (Up)  
Let the sound light the fire inside (Up)  
Start to fly, wave the ground good bye (Up)  
Hold this feeling and don't let go (Up)  
When I drop the beat the whole crowd goes (Ohh)

(Up...)

When they bring you down

Oh I will pick you up
