As the great war is over and lost He's been wounded in war, he returns with awards Into battle again far from home From a far distant land, our Marshal command

Home

Siblings sent to their death
His wife paid the ultimate price
Still
As the war rages on
You are our guide

Far, far from the fame
Far, far away from the fame
But we still remember your name
Karel Janoušek!
We mourn the day that you died
So be our guide, Czechoslovakia's pride

When the war has been fought and been won Our Marshal returns, to be thrown into jail Facing torture and years behind bars When he's finally back, life in ivory black
