

# Metal Medley

Sabatón

I have a phobia  
A fear of the dark  
Afraid to shoot strangers  
The animal talks  
Guns scare me shitless  
But love gun's my friend  
The sentinel's coming  
But is this the end

Riding on this crazy train  
I'm going paranoid  
Watch me lose my mind  
And break the law  
I'm a metal machine

It's close to midnight and  
He's barking at the moon  
I'm a metal machine  
the rainbow in the dark is shining  
I'm only metal machine

It's close to midnight and  
He's barking at the moon  
I'm a metal machine  
The kings of metal ride the sky

Is this st. anger  
The ultimate sin  
Or have I really  
A black knight within  
The gates of Babylon  
Are open and wide  
Shout at the devil  
There's nowhere to hide

Fighting for the world to keep  
The wild child in it's cage  
Broke my metal heart  
Against the wall  
I'm a metal machine

It's close to midnight and  
He's barking at the moon  
I'm only metal machine  
the rainbow in the dark is shining  
I'm a metal machine

It's close to midnight and  
He's barking at the moon  
Come touch my metal machine  
The kings of metal ride the sky
