Warsaw Rise!

Do you remember when,  
when the nazis forced their rule in Poland?  
1939 and the allies turned away.  
From the underground  
rose the hope of freedom as a whisper.  
City in despair - But they never lost their faith.  
Women, men and children fight  
they were dying side by side.  
And the blood they shed upon the streets  
was a sacrifice willingly paid.

Warsaw, City at war!  
Voices from underground, whispers of freedom.  
1944, help that never came.  
Calling  
Warsaw, city at war!  
Voices from underground, whispers of freedom.  
Rise up and hear the call.  
History calling to you,  
Warszawo Walcz!

Spirit, soul and heart.  
In accordance with the old traditions.  
1944, still the allies burned away.  
Fighting street to street  
in a time of hope of desperation.  
Did it on their own and they never lost their faith.

Women, men and children fight they  
were dying side by side.  
And the blood they shed upon the streets  
was a sacrifice willingly paid

Warsaw, City at war!  
Voices from underground, whispers of freedom.

Rise up and hear the call.  
History calling to you,  
Warszawo Walcz!

All the streetlights in the city  
broken many years ago  
break the curfew, hide in sewers  
Warsaw, it's time to rise now
