

## Lost in the Grave

Sabbat

Wake up in the darkness  
Lay down on the damp earth  
Face up look around  
There are cross 'n' tombstones  
Stand up and start walking  
Drift the damp air  
Moonlight shine on numberless crosses  
No understand north or south

I'm lost in the grave  
Can't get away this place  
I'm lost in the grave  
What on earth is this ?

Jackals bark from faraway  
Crows cawing from the sky  
Men's shouting from basement  
Painfull voice cross to my hear  
Kept on walking with tremble  
Drift the stink of rotten  
Any number of cross cover me  
Unknown where to go

Wandering about aimlessly in the grave  
I became solitude, what on earth is this ?  
Kneel down, and wept to the sky  
"Somebody help me to get out of here,  
To get out ~!!~!! Help ! No - !!!"  
Strange sign around me  
Icy hands appeared from the earth  
Broken coffins, the dead get on the move  
Run away at full speed from there  
How long running on, get out of breath  
Caught myself with against the cold  
Just as lifted up my face  
It was a tombstone  
My name carved on the tombstone... "No - "  
I was a wraith in the grave  
Get dark in my mind  
I was a wraith in the grave  
Can not believe this truth  
Get dark in my mind  
I amazed on the place
