

## Satan Is Beautiful

Sabbat

He rules hell's domain, a chief satanist  
Rules supreme, turns the new page to doom  
His 7 legions, play with war, his command  
It's golden ecstasy for demons

In night, connecting to inferno  
Opened the door of darkness  
Travelin' of the speed of light  
Saw the evil never seen

His heart full of morbid mortal's blood  
His 666, it's sigh of king of hell  
He calls down killings and bleedings,  
Raise, the massacre  
He rapes the angels, take those wings

Satan is beautiful, to hell and back  
Seen the pits of hell, kissed Lilith fair  
He is the evil eye possessed beyond belief  
He'll bring the dead of the night  
Into your flesh and bone  
You can take a trip with him  
If you wish to live of dark  
Follow him and together  
Holding high the reversed cross  
Watch the mortal bleed  
Drink the blood and feel his wrath
