

# Catch My Breath

Sabrina Carpenter

For a girl out on the beach  
The sun seemed so out of reach  
An oh so distant brilliant star  
Through the years as that child grew  
That's the way she thought of you  
As one to worship from afar  
But life's a rocket and here we are

Standing on a star  
And the view is astounding  
Pounding of my heart  
Is everything I've ever dreamed of  
I know heaven isn't only for  
The sweet life after death  
When I look at you  
Gotta Catch My Breath

For the girl that hoped she would  
But was never sure she could  
You know that love was worth the fight  
And after such an uphill climb  
What I'd give to turn off time  
And live forever in your sight  
But life's a rocket so for tonight

I'm standing on a star  
And the view is astounding  
Right here where we are  
Is everything I've ever dreamed of  
I know heaven isn't only for  
The sweet life after death  
When I look at you  
Gotta Catch My Breath

Rock the night, burn it bright  
Like a comet in the darkness  
Don't you see?  
Tonight belongs to you and me

We're standing on a star  
And the view is astounding  
Right here where we are  
Is everything I've ever dreamed of  
I know heaven isn't only for  
The sweet life after death  
When I look at you  
Gotta Catch My Breath

Right here where we are  
Is everything I've ever dreamed of  
I know heaven isn't only for  
The sweet life after death  
When I look at you  
Gotta Catch My Breath  
When I look at you  
I have to Catch . . .  
My Breath
