

# On Purpose

Sabrina Carpenter

Your eyes  
Crashin' into my eyes  
Was I accidentally falling in love  
Your words  
Didn't mean to hear but heard  
Were coincidentally more than enough

All these days I never thought  
That I would need someone so much  
Who knew?  
But I don't think I ever planned  
For this helpless circumstance  
With you

You're scared, I'm nervous  
But I guess that we did it on purpose, on purpose, on purpose  
Baby, I know it's weird, but it's worth it  
Cause I guess that we did it on purpose, on purpose, on purpose  
But I guess that we did it on purpose  
But I guess that we did it on purpose

My dreams running into your dreams  
It's as if we wished on the same star  
And my time changing all of your time  
It's a butterfly effect on my heart

All these days I never thought  
That I would need someone so much  
Who knew?  
But I don't think I ever planned  
For this helpless circumstance  
With you  
Oh, woah

You're scared, I'm nervous  
But I guess that we did it on purpose, on purpose, on purpose  
Baby, I know it's weird, but it's worth it  
But I guess that we did it on purpose, on purpose, on purpose  
But I guess that we did it on purpose  
But I guess that we did it on purpose

Lost in darkness  
You're my focus  
Love me hopeless  
But I guess that we did it on purpose  
Lost in darkness  
You're my focus  
Love me hopeless  
Oh, you're scared

You're scared, I'm nervous  
But I guess that we did it on purpose, on purpose, on purpose  
Baby, I know it's weird, but it's worth it  
Cause I guess that we did it on purpose, on purpose, on purpose  
But I guess that we did it on purpose  
But I guess that we did it on purpose

Lost in darkness  
You're my focus  
Love me hopeless  
But I guess that we did it on purpose  
Lost in darkness  
You're my focus  
Love me hopeless  
But I guess that we did it on purpose
