## Sabrina Carpenter

## **Silver Nights**

Baby baby Baby baby

You're the best present ever, Life's a snow globe when we're together Like a normal rock will picture Baby baby, it's crazy how We're walking around this frozen town, I'm wrapped up like a bulb In your arms, swearing stars Bounting off the snowflakes Falling down and decorating all the tender lights There's nothing like the silver nights with you!

Streets are clouds, and stores are busy Sipping cocoa, I'm just wishing There'll be some mistletoe and you might kiss me Walking around this frozen town, I'm wrapped up like a bulb In your arms, swearing stars Bounting off the snowflakes Falling down and decorating all the tender lights There's nothing like the silver nights with you!

Walking around this frozen town, I'm wrapped up like a bulb In your arms, swearing stars Bounting off the snowflakes Falling down and decorating all the tender lights There's nothing like the silver nights, Nothing like the silver nights, Nothing like the silver nights with you!
