## **Stand Out**

## Sabrina Carpenter

Don't sweat on the little things just Keep your eye on the bigger things cause If you look a little closer You're gonna get a better picture Your heart beats like a marching drum It's telling you to keep on walking on and You gotta find a little fire Shine your light a little brighter You and I were meant to fire like rockets in the night Keep your head up Shoot the clouds down Throw it all in Break your own ground And if your gonna make a mess make it loud And if your gonna take a stand Stand out Life is our game We can go play Shake up the rules Don't be afraid And if your gonna make a mess make it loud And if your gonna take a stand stand out Stand out Oh oh oh oh (4x) Stand out Jump on to the roller coaster Up up, now We're getting closer We can be the silver lining For every treasure that is hiding We're coming on at the speed of light yeah Boom boom It's like dynamite We're gonna start a revolution Don't stop keep moving You and I were meant to fire like rockets in the night Keep your head up Shoot the clouds down Throw it all in Break your own ground And if your gonna make a mess make it loud And if your gonna take a stand Stand out

Life is our game We can go play Shake up the rules Don't be afraid And if your gonna make a mess make it loud And if your gonna take a stand Stand out Stand out Oh oh oh oh (8x) Stand out Be the voice Be the cause Be the change Be yourself thats the best you can be You and I were meant to fire like rockets in the night Keep your head up Shoot the clouds down Throw it all in Break your own ground And if your gonna make a mess make it loud And if your gonna take a stand Stand out Life is our game We can go play Shake up the rules Don't be afraid And if your gonna make a mess make it loud And if your gonna take a stand Stand out Stand out Oh oh oh oh (8x) Stand out
