

# I Don't Care

Sacred Reich

I see you watchng me  
Very carefully  
Is it you believe  
Sibling rivalry  
Getting in too deep  
Quicksand at you feet  
Can you stand the heat  
Or cave in to defeat

I've seen it all before  
A cycle evermore  
The walls come crashing in  
But I don't care  
I don't care

Take it for what it is  
Pain is one man's bliss  
A life of opposites  
A matter of perception  
Life is suffering  
Think of the joy it brings  
The sound is deafening  
It's making my ears ring

Tell me to turn it down  
I'll make it twice as loud  
You say I have to stop  
But I don't care  
I don't care

You listen for the sound  
Your ears to the ground  
Your time will come 'round  
Don't let it get you down  
All things under the sun  
Will return to one  
And when our days are done  
No where to turn and run

You say me ways ain't right  
That I don't see the light  
I see them every night  
But I don't care  
I don't care
