## Pressure

## **Sacred Reich**

Full of potential Yet nothing there Filled with infinite ideas Why so hard Don't know what's the problem Seems like pulling teeth Never had this happen I must overcome Pressure Pressure Pressure In my head Pressure Pressure Pressure In my head Tap into the bank of knowledge Reaching for the source Look around in my mind For some meaning Don't know what I might find Hope I find it soon Taking just too much time Sitting in this room Pressure Pressure Pressure In my head Pressure Pressure Pressure In my head Don't like what I'm seeing Lack of drive and thought Don't know how to fix it Time to start Days of deep reflection Nights of sweat and work Have to beat this This is my reward Look around in my mind Hope to find any ideas I like And can write Have to have some meaning Not just some words Put some music to it Get to work Pressure Pressure Pressure

In my head Pressure Pressure In my head
